SECTION B: COMPREHENSION PASSAGE

Read the passage below and use it to answer the questions that follow.

Corona virus is a dangerous disease that causes illness. It is transmitted between two people who are very close. Common signs of infection include sneezing, fever, dry cough, headache and breathing difficulties. In more severe cases, infection can cause pneumonia, kidney failure or even death.

The virus was first detected in China but it has now spread through out the world. Everybody is now at risk of contacting covid-19 as it is known. To prevent the infection from spreading, sanitize your hands and wash them with soap and running water regularly. Wear a mask while in public places. Cover your mouth and nose with disposable tissue
