THE KENYA NATIONAL JUNIOR EXAMINATIONS AND ASSESSMENT SERIES

KENYA JUNIOR SCHOOL EDUCATION ASSESSMENT

912/2:PRE-TECHNICAL STUDIES (*Project*)

CONFIDENTIAL

Teacher's Guide: 912/2 Pre-Technical Studies (Project)

This guide provides instructions and clarifications for teachers administering the 912/2 Pre-Technical Studies (Project) assessment. The project aims to assess learners' practical skills in design, construction, digital literacy, and basic business understanding, integrating concepts from Pre-Technical Studies, Computer Studies, and Business Studies.

1. Overview of the Assessment

Subject: 912/2 Pre-Technical Studies (Project)

Duration: 1 Month

Format: Group project (4-5 learners per group)

Objective: To design and construct a portable 3-tier fruit rack, record daily sales using Excel, and understand basic business management principles.

2. General Instructions to Teachers

i. **Supervision:** Provide close supervision and guidance throughout the project duration.
ii. **Safety:** Emphasize and ensure adherence to safety precautions during the construction phase, especially when learners are using tools.
iii. **Resource Management:** Guide learners on effective use of locally available materials and digital tools.
iv. **Fairness:** Ensure equitable participation from all group members. Encourage collaboration and problem-solving within groups.
v. **Assessment:** Familiarize yourself with the scoring rubrics for each task to ensure consistent and fair assessment.
vi. **Record Keeping:** Maintain clear records of candidate names, assessment numbers, school name, and school code for official purposes.
