PRE-TECHNICAL STUDIES: PAPER 2

Task: Driving a nail into a piece of wood

Instructions to the teacher:

1. Ensure all learners have a hammer and nails.
2. Ensure all learners have personal protective equipment such as gloves.
3. Remind learners how to hold a hammer.

Instructions to the learner:

1. With one hand hold a hammer at the handle.
2. With the other hand, hold the nail on the wood.
3. Hit the nail with the hammer and drive it through the wood.
4. Once the nail is stable in the wood, remove the hand holding it.
5. Continue hitting the nail until it is completely in the wood.
