Task II: Reading aloud

Read the story below aloud as the teacher listens.

As soon as the bell rang, we assembled outside the computer laboratory, we could not **make head** or **tail** of the meaning of the bell since we had never assembled during the **wee** hours before. There were murmurs from some pupils while others were complaining of their interrupted asleep. The teachers were standing in a small group just next to the entrance to the computer laboratory. The head teacher had a worried expression on his face. The teacher on duty called the gathering to order. There was silence as every pupil was eager to hear the meaning of this night assembly.
