Grade Two Art and Craft Notes

Forms--- A form is an object with 3 dimensions such as height,width and depth. Examples of forms are trees,balls, animals,cars, people and books.

Materials used in drawing forms are:pencils,rulers,colours,erasers.

Guide Learners to draw any simple form from the environment e.g house,tree or a book

Texture is the smoothness and roughness of a surface. We use our hands and skin to identify texture.

Learners to identify textures in their in their immediate environment by touching things like books,desks,walls,trees and bags.

We identify texture by touching and feeling objects.

The materials used in creating textures are pencils,crayons and textured surface.

How to create textures

Place a paper on a surface. Use the pencils to rub the pieced of paper as it it rests on a different surface.

Work to do.

Let Learners say whether this surfaces are smooth or rough.

Fresh leaf_____

Classroom floor_____

Back of a tree_____

Outside office wall_____

Ball_____

School gate_____

Office window_____

Toilet door_____

Painting shapes from observation.
