LECLERE BARAKA MEMORIAL SCHOOL INTERNAL ASSESSMENTS

LEARNING AREA: **LANGUAGE ACTIVITIES. ENGLISH. GRADE3**

TERM_____ (MID) (END) (CONTINUOUS)

NAME _____GENDER_____ ATTENDANCE _____ UPI_____

TASK 1. LISTENING AND SPEAKING ACTIVITIES

I am going to read a poem for you and then I will ask you questions. Listen carefully.

There was an old woman
Who lived in a hut.
She had so many children.
She didn't know what to do
She gave them some tea
Without bread.
She caned them all soundly.
And sent them to bed.

Where did the old woman live? _____
How many children did she have? _____
What did she do to her children before going to bed? _____
Where do you sleep? _____

TASK 2. READING ALOUD ACTIVITIES

Read the story aloud.

Some insects live and work together in large groups. These insects survive by sharing their homes, work and food. They are called social insects. Ants, bees and wasps are examples of such insects.

Ants live together in a nest. They usually build a nest that has many rooms. Each room is used for a different purpose. The queen uses one room to lay eggs. The young ants make silk threads.

Bees live together in a hive. There are four kinds of bees in a hive: The queen bee, the male bees, the worker bees and the young bees. The queen and the male bees stay in the hive and produce eggs. The young bees stay in the hive. They store the honey in the hive.
