**THE SCHOOL GARDEN**

Green Valley Primary School had a large piece of unused land behind the classrooms. The land was covered with grass and a few small bushes. One day, the Grade 4 learners were discussing how they could make their school compound more useful.

Their teacher, Mrs. Wanjiku, suggested that they start a school garden. The learners were excited about the idea. They agreed that the garden could provide vegetables for the school kitchen and make the compound beautiful.

The following Saturday, the learners, teachers and some parents gathered at school. They cleared the land and removed stones, weeds and rubbish. The parents helped the learners prepare the soil. They then made small beds where different vegetables could be planted.

The learners planted spinach, sukuma wiki, carrots and onions. They watered the crops every morning before lessons began. They also made a simple fence around the garden to protect the plants from animals.
