**Expected responses;**

1. **How balance has been created in the drawing:** equal distribution of forms on either side of the axis
2. **Two secondary colours used in the picture;**
   - Green
   - Orange
3. **(a) Two reasons why the diary needed a jacket;**
   - Protect the diary from damaging scratches, spills and dirt/dust,
   - Make the diary look beautiful and appealing,
   - Protects the binding/pages of a book.

   **(b) Two possible ways used to attach the decorations on the jacket.**
   - Sticking/gluing
   - stitching

4. **(a) How the slabs were joined to make the vase;**
   - mark where the pieces are to be joined to each other
   - score or scratch the edges of the slab using a nail, knife or sharpened stick,
   - apply or spread slip or wet clay or liquid clay or water; let it stand for a moment
   - firmly press the pieces together, pinch or press to stick.

   **(b) Two problems of using the wrong type of clay for modelling;**
   - breaking/ cracking of items when modelling
   - stickiness
   - inability to roll the clay due lack of plasticity

5. **Benefits of working in groups**
   - Share resources,
   - Exchange ideas,
   - ideas from others influence one's own thinking and broaden horizons,
   - Improve on and learn negotiating skills,
   - Help improve critical thinking skills and make one a sharper thinker.

   **OR Any other relevant answer.**

6. **Two problems experienced as a result of not cleaning up after a lesson**.
   - Wet paint and water sprinkled on the surfaces may soak books
   - Time wasted for the next lesson

7. **Four steps of producing sharp leaf prints**
   - Press the leaves between newspapers or a book to flatten,
   - Mix paint/printing paste to a thick consistency,
   - Apply paste/paint on the raised side/ raised veins of the leaf,
   - Press firmly to reveal the print.
